8. Expected learning outcomes of the program

Knowledge

Learning Outcomes Statement 1

- 1- Through tests and their variety, we are able to measure learning outcomes.
- 2- Involving female students in seminars related to the Arabic language and related fields to measure their ability to apply and use the rules correctly.
- 3- Conducting poetic debates; so that we can measure the extent of the students' familiarity with all poetic eras.
- 4- Conducting competitions to assess their memorization of the Holy Quran and the Noble Hadith; to measure their knowledge of the rules and principles of recitation and their knowledge of the Hadith.

Learning Outcomes 1

- 1- The student should be able to master the rules of the Arabic language in grammar, morphology, spelling and expression.
- 2- The student should be able to apply the rules of the Arabic language in various linguistic uses.
- 3- The student should be familiar with all aspects of Arabic literature (pre-Islamic, Islamic, Umayyad, Abbasid, Andalusian, modern and contemporary) and the most prominent poets of each period and understand the literary texts in them, both poetry and prose.
- 4- The student should be familiar with all schools of literary criticism throughout the ages.
- 5- The student should be familiar with the sciences of the Holy Quran (rules of recitation, interpretation, Hadith and its terminology and related matters).
- 6- The student should learn modern technical skills in language study.

Skills

Learning Outcomes Statement 2

Learning Outcomes 2

<p>1- Applying the teaching methods that they have mastered by applying them as lessons during lectures.</p> <p>2- Through the observations that female students make during their visits to secondary schools, they can record their observations on the teaching methods followed by teachers in schools, and this enables them to know the method or methods that suit the students.</p>	<p>1-The student should be able to become familiar with the methods of teaching, measuring and evaluating the scientific subject.</p> <p>2- The student should be able to choose the appropriate teaching method for each scientific subject so that she presents it in an interesting way.</p> <p>3- The student should be able to solve problems related to students' understanding of the scientific material by using educational psychology theories and modern teaching methods, which facilitates the study and teaching of the language.</p>
---	--

Values

<p>Learning Outcomes Statement 3</p> <p>* The most important value-based outcome that can be achieved is instilling a love for the Arabic language as the language of the Holy Quran, which God has blessed by distinguishing it with this feature.</p>	<p>Learning Outcomes 3</p> <p>1- To raise female students to love the Arabic language, the language of the Holy Quran, and to understand its status among languages.</p> <p>2-To identify the beauty features in the Arabic language and its literature.</p> <p>3- Developing the student's literary taste so that he can appreciate the aesthetic aspects of speech styles and images.</p>
---	---

<p>Learning Outcomes Statement 4</p> <p>*The results of the values can be represented by raising a morally distinguished group, and a role model for others through their dealings with their peers and with society.</p> <p>*The approach relies on observing the student's behavior, interviewing her, discussing with her, and monitoring her relationship with the educational environment, thus providing a cumulative record of her embodiment of affective and value-based goals.</p>	<p>Learning Outcomes 4</p> <p>1- Activating the role of the outstanding student and role model; so that he may be a good role model to those around him.</p> <p>2- Forming a general set of good values.</p> <p>3- Providing psychological motivation to achieve emotional goals.</p>

11. Course Evaluation

The grade out of 100 is distributed according to the tasks assigned to the student, such as daily preparation, daily, oral, monthly, and written exams, reports, etc.

The grade is distributed through several channels:

- 1- Formative assessment through daily quizzes, observing and monitoring the student's performance in class discussions and homework assignments, and classroom assessment. This does not exceed 20% of the total grade.
- 2- Diagnostic assessment through semester and final exams to issue judgments of success and failure. This has a grade of 80% divided over (4) exams, two exams for each semester, to extract the annual effort before entering the final exams.

11. Course Evaluation

The grade out of 100 is distributed according to the tasks assigned to the student, such as daily preparation, daily, oral, monthly, and written exams, reports, etc.

The grade is distributed through several channels:

- 1- Formative assessment through daily quizzes, observing and monitoring the student's performance in class discussions and homework assignments, and classroom assessment. This does not exceed 20% of the total grade.
- 2- Diagnostic assessment through semester and final exams to issue judgments of success and failure. This has a grade of 80% divided over (4) exams, two exams for each semester, to extract the annual effort before entering the final exams.

11. Course Evaluation

The grade out of 100 is distributed according to the tasks assigned to the student, such as daily preparation, daily, oral, monthly, and written exams, reports, etc.

The grade is distributed through several channels:

- 1- Formative assessment through daily quizzes, observing and monitoring the student's performance in class discussions and homework assignments, and classroom assessment. This does not exceed 20% of the total grade.
- 2- Diagnostic assessment through semester and final exams to issue judgments of success and failure. This has a grade of 80% divided over (4) exams, two exams for each semester, to extract the annual effort before entering the final exams.

11. Course Evaluation

The grade out of 100 is distributed according to the tasks assigned to the student, such as daily preparation, daily, oral, monthly, and written exams, reports, etc.

The grade is distributed through several channels:

1- Formative assessment through daily quizzes, observing and monitoring the student's performance in class discussions and homework assignments, and classroom assessment. This does not exceed 20% of the total grade.

2- Diagnostic assessment through semester and final exams to issue judgments of success and failure. This has a grade of 80% divided over (4) exams, two exams for each semester, to extract the annual effort before entering the final exams.

11. Course Evaluation

The grade out of 100 is distributed according to the tasks assigned to the student, such as daily preparation, daily, oral, monthly, and written exams, reports, etc.

The grade is distributed through several channels:

1-Formative assessment through daily exams, observing and monitoring the student's performance in classroom discussions and homework, and classroom assessment. This does not exceed 20% of the total score.

2- Diagnostic assessment through midterm and final exams to determine pass and fail This grade is 80%, divided into (4) exams, two exams for each semester, to calculate the annual grade before entering the final exams.

12. Learning and teaching resources
