

## Academic Program Description Form

**University Name:** Tikrit University

**College/Institute:** College of Education for women

**Scientific Department :** Department of Quranic Sciences and Islamic Education

**Name of Academic or Professional Program:** Bachelor of Quranic Sciences and Islamic Education

**Name of Final Certificate:** Bachelor of Quranic Sciences and Islamic Education

**Study System:** Annual

**Description Preparation Date:** 2024/9/18

**File completion Date:** 2024/9/18

**Signature:**

**Name of the Head of Department:**

Prof. Dr. Muayad Naseef Jassim

**Signature:**

**Name of the Scientific Assistant:**

Prof. Dr. Ashraf Jamal

**The file is checked by:** Shahad Khalid Hameed

**Department of Quality Assurance and University Performance**

**Director of the Quality Assurance and University Performance Department**

**Date:**

**Signature:**

Approval of the Dean

Prof. Dr. Najla Abdul Hussein Aliwi

### **1-See the program**

The Department of Quranic Sciences and Islamic Education at the College of Education for Girls looks forward to reaching the highest levels of knowledge in the field of Sharia sciences and its various branches, achieving excellence in teaching, research and application, spreading authentic Islamic concepts in society and achieving Islamic identity in it, and actively contributing to educating generations on the meanings of the Holy Quran and the authentic morals of Islam by preparing graduates with a high level of experience and scientific competence and providing them with the technical skills necessary to succeed in their tasks as specialists in all Sharia sciences glue and work. With high efficiency in various fields of .social activity of the state

### **2 . Program message**

The department seeks excellence through the development of qualified human resources capable of serving forensic sciences authoring and teaching in a scientific manner that combines originality and modernity through qualified teaching cadres in the field of forensic sciences, and in order for the department to perform its mission, attention must be paid to the level of its outputs of teachers and teachers who are able to bear the burdens of education and .upgrade it

### **3.Program objectives**

Preparing advanced teaching cadres in the field of reading the Holy Quran • and teaching it recitation, memorization and interpretation, especially among women, who represent half of society. • Preparing distinguished female cadres in the field of advocacy and education and carrying the message of Islam to the community in a way that contributes to the establishment of a generation that believes in God Almighty and the divine message and is created with the morals of the prophets and the righteous,

peace and blessings be upon them • Providing educational institutions in the country with distinguished female teaching cadres capable of providing the best expertise in the field of the Holy Quran sciences and various legal sciences. • Preparing specialized cadres in the field of knowledge of jurisprudential rulings and the rest of the legal sciences away from fanaticism, terrorism, and hateful sectarianism. • Spreading awareness of Islamic sciences and their importance among members of society and its institutions through seminars, lectures, conferences and various media. • Provide the necessary advice and expertise to assist state facilities in solving problems or improving performance, developing skills for workers or prevention and treatment

## 8 Expected learning outcomes of the programme

### Knowledge

A4- The student should be familiar with all language sciences such as grammar, morphology and rhetoric. A5- The student should be familiar with the sciences of the Holy Qur'an (the provisions of recitation, interpretation, hadith and its terminology and related matters) 6- The student should learn modern technical skills in the

A1- The student should be able to adjust the rules of recitation of the Holy Qur'an and its sciences, the sciences of the Sunnah of the Prophet and the various jurisprudential rulings. A2- The student should be able to apply the rules of recitation and memorization in reading the Holy Quran and jurisprudential rulings in various aspects of daily life. A3- The student should be familiar with all the jurisprudential rulings related to

.study of forensic sciences	the life of the Muslim, such as the provisions of worship, personal status, financial .transactions and felonies
<b>Skills</b>	
B3 - The student should be able to solve problems related to understanding the scientific material of students using the theories of educational psychology and modern teaching methods, which facilitates the study and .teaching of Qur'anic sciences	B 1 - The student should be able to familiarize himself with the methods of teaching, measurement and evaluation of the scientific material. B2 - The student should be able to choose the appropriate teaching method for each scientific subject so that it presents it in an interesting way
<b>Values</b>	
Emotional goals are not evaluated through traditional tests, but rather rely on observing the student's behavior, interviewing, discussing and following up on her relationship with the educational community, which provides a cumulative record of her .representation of emotional goals	Work to advance society by spreading legal awareness, virtues and morals, and educating its members on the teachings of the Holy Qur'an, the etiquette of the Prophet's Sunnah .and the lives of the righteous
Statement of learning outcomes 5	Learning outcomes 5
<b>.9 Teaching and learning strategies</b>	
Inductive method - problem solving method. - The strategy of the young teacher - the preparation of training courses and seminars to provide students with the ability to communicate with the community, the ability to fruitful dialogue, and	

solve educational problems by scientific methods. - Classroom interaction and exchange of views between the student and the teacher to raise learning difficulties and discuss their solutions. - Modern strategies (electronic classes, modern means)  
- Brainstorming

### .10 Evaluation methods

Oral and written tests, individual and group, theoretical and practical. -  
-  
Direct observation of the student's performance in the fields of dialogue, intellectual and scientific communication, and teamwork within the classroom and the college and university environment. Assigning students to prepare scientific research to test their ability to think, conclude and solve problems, structural or formative evaluation (daily exams, classroom discussion, homework and follow-up, classroom evaluation). - Diagnostic evaluation (semester and final exams to issue passing and failing judgments).

### Professional development

#### Mentoring new faculty members

Holding continuous meetings and meetings to explain the mechanism of work -  
of the committees in the department and the integration of faculty members in  
their work. 2- Involving new faculty members with professors who are  
professors and assistant professors in lectures as an alternative to gain practical  
and scientific experience and master teaching skills. 3- Explaining the  
regulations, laws and instructions and assigning new teachers to administrative  
work in the department and in the college

#### Professional development for faculty members

Holding qualifying courses for scientific communication through seminars and conferences and joint work with qualified cadres in similar disciplines. - Access to international studies in similar departments, to develop the ability to research and solve scientific problems. - Engage in the acquisition of modern scientific experiences and skills in the field of modern .technical communication

**.12 Acceptance criterion**

Admission to the college follows the central distribution system pursued by the - Ministry of Higher Education and Scientific Research according to the admission form in Iraqi universities and institutes and by balancing between the student's desire and the total obtained, and the admission is (central, morning, evening, and parallel

**.13 The most important sources of information about the program**

Link to the program on the Internet, and its applications in similar universities  
 Training courses held by the departments of quality and university performance about the program in various institutes and colleges in Iraq

**14. Program development plan**
